

Bioeconomy in Baden-Württemberg – status report

BIOPRO's "Bioeconomy – Baden-Württemberg's path towards a sustainable future" status report provides insights into the world of bioeconomy and also information about the measures that the Baden-Württemberg government is taking to support the transition from a fossil-fuel economy to one based on biological resources. The bilingual (English and German) report can be downloaded from the BIOPRO website.

Baden-Württemberg is making the transition from a fossil-fuel economy to one in which bioeconomy is the driving force. The "Bioeconomy – Baden-Württemberg's path towards a sustainable future" status report provides information on bioeconomy, the topics and fields of knowledge that play a role, ongoing projects in Baden-Württemberg and the measures with which the Baden-Württemberg government is supporting the implementation of a biobased economy.

In addition, six experts from the field of bioeconomy give their opinion as to why they believe the bioeconomy is so important and what needs to be taken into account when shifting from a fossil fuel-based to a biobased economy.

The print version of the report can be ordered free of charge by sending an email to [baechtle\(a\)bio-pro.de](mailto:baechtle(a)bio-pro.de).
