## Shaping change!

With this motto, we would like to discuss with you how a transformation towards a sustainable, resource-conserving and fair bioeconomy can be initiated. Based on the results of the Bioeconomy Council's work to date, we want to discuss together ways in which the implementation of the bioeconomy can be actively advanced by politics, business and society.

The forum will focus in particular on selected topics on which the Bioeconomy Council has formulated recommendations for the implementation of the national bioeconomy strategy. In addition, the Bioeconomy Council is currently working on further topics that will also be the subject of discussion at the forum.

The Forum is the meeting place for experts in the bioeconomy and all those interested in this topic. With interactive formats, we would like to give you the opportunity to get involved and participate in the discussion. There will also be space for networking and exchange.

This announcement is a third-party event and is not organised by BIOPRO Baden-Württemberg GmbH itself.
